House Appoints a Committee to Settle the Question of Mileage.

Conduct of the War and the Signing of the Peace Trenty Are Commended-List of the Senate Committees.

PIERRE, S. D., Jan. 6 .- (Special Telegram.)-In the house today a committee consisting of Stoddard, Hawgood, Hurlburt, Ryan and Sophy was appointed on mileage of members. A resolution was presented by Dwight, asking that the appropriation committee prepare and present as early as possible a deficiency bill for the reform school. A joint resolution by Stoddard, endorsing the actions of President McKinley in the conduct of the war and securing a treaty of peace, carried almost unanimously. Resolutions were passed in both houses memoralizing congress to pass the free homestead bill and to make a permanent post of Fort Meade, the senate resolutions being taken up and passed as soon as they came up to the house. The house commit-

cents per day less than last year. The most important house bills introduced and given first and second reading today

Providing for the government of cities of the second class and placing absolute power of removal in the hands of the mayor, clessifying cities according to population, 10,000 in the first class, between 2,000 and 10,000 second class and under 2,000 third class; reduction of interest rate to 10 per cent; to prevent the spread of disease among swine; requiring receivers, assignees or employes at nine hours; regulating the purchase of supplies by public officials, providing an appropriation of \$25,000 for an additional building at the Spearfish negrets. tional building at the Spearfish normal; to amend the revenue law to strike out net and gross carnings privilege from railroad

A long list of bills was introduced and given first reading in the senate, the most important being:

Requiring the railroad companies at once to fix a maximum rate for express companies; substituting railroad commissioners for the state treasurer on the Board of Equalization; empowering cities, villages and towns to purchase certificates of sale; requiring state officers to reside at the seat f government: defining liabilities of government; defining liabilities of government; defining liabilities of government; defining liabilities of government; defining liabilities of government of lands, though not in possession, may conseve their interests; amending section 6009, divulging telegraph messages; attaching certain lands to Clay county for judicial purposes; requiring county auditors to procure and keep lades books; to prevent the spread of how cholera; requiring the penitentiary to guiring owners of stock brought into the message came up, it was allowed to go over without any action being taken. It will be called up later today.

Privileges tome.

Like a Vampire

Upon young men sexual disease fastens itself like a vampire, weakening and emaciating him while it drains away their forces, which they claim is unbreakhis life and vitality. In older able. The vote tonight was exactly as taken men it comes like the breath at the eighth ballot last night, and stands:

from a bot African description of the breath of the eighth ballot last night, and stands:

Johnson, 31; Little, 10; Marshall, 13; Lafrom a hot African desert upon | moure, 6; McCumber, 8; Hanna, 5, and 4 the young and tender plant, robbing its for Cooper, giving the Johnson strength 31, life, strength and vitality, and its track against a vote of 46 for the field. is marked by devastation and death. Electricity is the one cure-and the only curefor the diseases of men. It is safe, sure, quick and permanent. Drugs will never cure-do not drug yourself to death. Electricity when applied by the great remedial agent of DR. BENNETT'S ELECTRIC BELT I unequivocally guarantee to cure in every case. It cannot fail. Electricity ds the Nerve and Vital

Force of every man and woman-it is Life Itself, My Belt has soft, silken, Chamoiscovered sponge electrodes that cannot burn and blister as do the bare metal electrodes used on all other makes of Belts. With its gentle, soothing. never-wavering current it is a pleasure to wear it. It produces a healthful sensation and enlarges and hardens all the muscles of the body. Makes weak men strong and strong men stronger. Weaknesses of mankind venish before it like dew before morning's sun. Every feeling of love you have for your family, every senti-

ment of manliness left in you cries out for prompt action. When my Belt is worn out it can be renewed for only 75c-no other belt can be renewed for any price. I have placed the price of my Belt so low, I hope they are within the financial reach of all the afflicted. Only \$8 and \$10. I positively guarantee it to cure all forms of Sexual Diseases, Lost Manhood. Varicocele, Impotency and General Debility; restore Shrunken or Undeveloped Parts and Lost Vitality; cure Rheumatism in every gutse, Kidney, Liver and Bladder Troubles, Constipation, Dyspepsia, Female Complaints

Call or write today-sacredly confidential -do not delay-your case may reach an incurable stage before you know it-get symptom blanks, books and literature. My Electrical Suspensory for the cure of the various weaknesses of men is FREE to every male purchaser of one of my Belts.

> lows a large and rapid business inquiry and existing conditions in the industries and in foreign trade by no means forbid the hope that the increase may continue as it did in 1879 and for several years. Exports, compared with imports, continue to indicate an enormous balance in cash due this country and imports begin again. Failures for the week have been 243 in the United States, against 322 last year and twenty-four in Canada, against thirty-two

last year. COLLECTIONS UNIFORMLY GOOD. Retail Trade Reflects Quieting Down of Enger Demand Before Holldays. NEW YORK. Jan. 6 .- Bradstreet's to-

morrow will say: The situation is quiet. The wholesale dis tributive trade annual inventories have oc cupied attention and distribution in this Retail trade reflects the quieting down of the eager demand ruling before the holidays, but it is significant that the maholidays, but it is significant that the ma-jority of the reports received since January in this and in the wholesale branch refet to collections as almost uniformly good. Export trade, particularly in cereals, con-tinues well up to maximum figures, while reports from the new great industries of the country are favorable. The cruder form of iron and steel have been in less demand this week and large orders are fewer in number, American consumers having pretty well covered themselves for some months to come by their liberal buying in December. In finished products, however, and partiularly in steel, rather more has evidently been doing, this being reflected in advances at both the east and the prices of steel Nicholas for a disarmament conference of heavy orders for railread account are te-the powers, which is just published, prom- ported booked and the export trade continrails, steel beams, plates and sheets. Some ues of liberal proportions, partly aided, no doubt, by the shading in ocean freight rates occurring during the last month. Aside from the aggressive strength of steel prices. quotations are little changed from a week

Good trade reports, at home and abroad and small receipts, coupled with more out between Great Britain and France on the standing speculative interests, have made for steadiness in raw cotton prices, while in manufactured goods all the old strength is maintained in print cloths and some other makes of cotton goods have been slightly fining the coast trade to French vessels, lines have been favorable and the opening concerning which M. Delcasse, French for- of spring trade is awaited with more than advanced. Returns as to 1898 trade in most usual confidence, this feeling being particu-larly marked in the lines above enumerated and in lumber and agricultural implements. Bank clearings for the week reflect ex-eptionally heavy annual settlements in a total of \$1,765,900,000, nearly \$40,000,000 larger than ever before reported, 25 per cent arger than last week, 24 per cent larger than in this week a year ago, 54 per cent larger than in 1897, 70 per cent larger than in 1895 and 75 per cent larger than in 1894. Business failures are exceptionally small or the opening week of the new year, numbering only 237, against 218 last week, 333 in this week a year ago, 488 in 1897, 446 in 96 and 405 in 1895. The steadiness of wheat this week, partici-

pated in by other cereals, finds explanation in continued foreign buying, the strength of the statistical position, the normal time for decreases in American stocks having arrived with supplies still smaller than at any cor responding date for ten years past, aided by favorable advices from Argentine, whence minimum estimates are again arriving The world's stock of wheat on January 1, as shown by telegraph and cable advices to Bradstreet's, gained only 9,700,000 bushels over December 1, against a gain of 25,000,-000 bushels in Nevember; and European and

American stocks combined on January 1, 1899 aggregated only 118 949,600 bushels, 13,000, 000 bushels smaller than on January 1 last rear, 37,000,000 bushels smaller than on January 1, 1897, 75,000,000 on January 1, 1897, 75,000,000 bushels smaller than on January 1, 1895, 86,000,000 bushels smaller than on January 1, 1895, and 92,000,000 bushels smaller than on January 1, 1894, when the maximum of stocks in recent years was reached. Stocks in the United States east of the Rockies are the lightest for eight years past and with the exception of 1891 are the smallest yield for fifteen years past.

The December total of bank clearings proved a fitting conclusion to a year of unprecedented expansion in many lines, in a suggestate of seventy-seven cities of \$7,355, 311,222, a gain of 13.7 per cent over Novem her's hitherto unapproached total of 23.5 per cent over December, 1897; of 58.5 per cent over December, 1896; of 71.2 per cent over the same month of 1894 and of 22.7 per cent over the same period of 1892. This latter gain, too, was shown in spite f the fact that the stock clearing house at

duced the volume of yearly clearings at that city by \$8,000,000,000. Wheat shipments, including flour, for the Since July 1, last year, the exports of son hospital

BRADSTREET'S FINANCIAL REVIEW. Uncertain Strength Developed in Stock in First Week of New Year.

NEW YORK, Jan. 6 .- Bradstreet's Financial Review tomorrow will say: After the extremely bullish demonstrations with which last week's speculations closed, it was expected that the opening of the new year would be marked by strength of an equally decided kind. This was only partly realized this week, new records as to quotations having been made in many parts of the stock list, while the trading particularly in the last two days, has shown an activity fully up to the recent high average was, however, some disappointment in Wall I find myself always in splendid health and Hartman, Columbus, Ohio, street, because when the stock exchange reopened after the three days' holiday a disposition to realize profits took the place of the expected larger public buying demand. A sensitive money market in London. in a rather bearish attitude toward Ameri-can stocks there, contributed to the hesita-tion which made itself felt in the general

rathroad share list here and which ently caused some of the professional tradors to temporarily take the bear side. London, after suffering somewhat from another cession of fears about the relations etween Great Britain and France and from the large calls which the season naturally brought on the Bank of England, maintained the house at 1210, was burned so that he its unfavorable position toward Americans, which was not improved by the fact that on Thursday \$1.500,000 gold was taken there in the open market for shipment to this side The latter circumstance was counted, how-

ever, among the bullish influences of the Some attention was also paid to the continued good railroad earnings reports and in is laid on the general and decided tendency f railroad managers to insist on the collection of full tariff rates for freight, which, restoration of charges to a paying basis. At the same time the market was more inter-esting in the manipulation of various parts of the list and the position which leading as well as in various developments and deals now said to be pending, which furnished a basis for the continued upward movement of certain stocks.

Stolen Groceries Recovered. Shaw & Fell, proprietors of a grocery store on Sixteenth street, notified the police last night that some enterprising thief was carrying on a systematic scheme of robbery that was making them poor. They complained that goods placed in front of the store were stolen in broad daylight and no trace of the thief could be found. Acting on suspicions made known by the firm, the

police, equipped with a search warrant, ran-

sacked the grocery store belonging to R.

Fried at 2403 Leavenworth street, in quest of stolen goods. Their search was rewarded

by finding several large sacks of sugar and miscellaneous lots of groceries, most of which were identified by Shaw & Fell as property taken from their store. No arrests were made, but several will likely occur to-Charged with Larceny. John Sution and Isaac Schultz were ar-rested Thursday evening and locked up on the charge of larceny. At the time of their suspected they had stolen. The tobacco was taken to the police station and last evening an employe of Paxton & Gallaguer

called and identified it as some that stilen from the platform in front of

Or Raiph attended his injuries at the police station and later Mery-man was taken for treatment to the Clark-

SECRETARY OF STATE

Hon. W. A. Ohley, Ex-Secretary of State of West Virginia.

Hon, W. A. Ohley is a typical citizen of the United States, a prominent business man of West Virginia, and a leader in political circles of that State. In a recent letter from Charleston, Mr. Ohley says: "I most heartily resommend Pe-ru-na as of great benefit in cases of catarrh; it is especially beneficial wherever the mucous membranes are affected. As a tonic it certainly has no superior," The national catarrh remedy (Pe-ru-na) is receiving many endorsements from people of national reputation. Governors recommend Pe-ru-na; senators testify to its merits; congressmen speak in highest terms of its efficacy. The mayor of the city where Pe-ru-na is manufactured praises this catarrh remedy in unstinted terms. The sheriff of the county where Peru-na is made speaks of it with the same enthusiasm, and now come forward representative men of different professions from various localities who recommend Pe-ru-na.

It is difficult to overestimate the benefit good spirits." Who is busier than the that Pe-ru-na is to the professional man, modern newspaper editor? It requires tact, The hardest work any ; sagacity, clear head and a constant attenman can do is mental
